

PANEL:BRICK

WE BUILD EASY TO INSTALL CUSTOM THIN BRICK PANELS TO COMPLETE YOUR INTERIOR OR EXTERIOR BRICK PROJECTS IN HALF THE TIME

Panel Brick of Illinois panels are a factory-assembled system featuring genuine 1/2" thin brick adhered to a rigid insulation fiber board, cement board, wire frame, or fiber mesh backer. Our product is strong, durable, and perfect for any application.

Perfect for commercial and residential applications in both interior and exterior environments. Panel Bricks are not faux brick, but panels of actual real brick and mortar. The final product gives the look and feel of real brick because it IS REAL BRICK! We offer a wide variety of brick styles and colors.
